Terms and Conditions for Free Usage of Software Tools
Institut für Theoretische Elektrotechnik
Hamburg University of Technology (TUHH)
12. April 2021

The following software tools of the Institut für Theoretische Elektrotechnik:

CONCEPT-II (demo version), CONCIRC, CONMTL, CONMLS (demo version)

may be used free of charge as long as the following terms and conditions are agreed upon. By using the software the user agrees that the following terms and conditions are being met:

1. The software codes and their documentation (manual, examples and alike) are solely owned and distributed by the Institut für Theoretische Elektrotechnik, Hamburg University of Technology (TUHH), Hamburg, Germany. It is not allowed to distribute, sell, share, or make available any part of the code or the documentation to third parties.

2. The software tools may only be used for purposes that are strictly non-armaments related and in general only directed to improve science, technology and their appropriate application for the benefit of humanity. Any commercial usage, simulations for third parties on a for-profit basis, or for armaments related purposes are not allowed.

3. The software tools may be used within the same department / group on as many computers as wanted. Any distribution beyond the same department / group is not allowed.

4. The software tools are not free of errors nor does the Institut für Theoretische Elektrotechnik guarantee that its results are correct. Every user is responsible for carefully checking the validity of all results. The Institut für Theoretische Elektrotechnik cannot be held responsible for any consequences / conclusions from software simulations. If the user becomes aware of any error or malfunction the Institut für Theoretische Elektrotechnik should be notified.

5. Users agree that data collected from them (e.g. their contact information) is stored and used for communication purposes. Data will not be shared with third parties.

6. Academic users agree to be listed by department/group name and institution names the on website of the Institut für Theoretische Elektrotechnik.

7. Users acknowledge that our codes constitute combined work according to the GNU Lesser General Public License Version 3 (LGPLv3) conditions and that they agree to comply with the license conditions. For further information on GNU-licenses please consult:

http://www.gnu.org/licenses/lgpl-3.0.en.html

and our website http://www.tet.tuhh.de/concept/.

8. Users agree that it is their own responsibility to check all codes provided by the Institut für Theoretische Elektrotechnik to be free of any virus, malware or alike before usage and inform the Institut für Theoretische Elektrotechnik if there are any problems. The Institut für Theoretische Elektrotechnik is taking precautions but cannot guarantee in any way for the integrity or security of the codes.
